PREFACE.

THE *Catalogue of Australian Fossils* was commenced in 1868 in conjunction with my friend and former colleague Mr Norman Taylor, merely with the view of carrying out our duties in connection with the Geological Survey of Victoria, but circumstances over which we had no control rendered the abandonment of the work necessary. It was not again resumed until 1871, then by myself, and through the interest evinced by several scientific friends I have been induced to continue the compilation, during leisure moments, until it has assumed its present proportions.

The subject of Australian Geology and Palæontology is even now only in its infancy, notwithstanding the rapid strides which have been made within the last few years. It naturally results therefore, that although the number of species to be listed may be small when compared with those of other countries, still, often from the absence of definite information, the compilation has been attended with no ordinary difficulties. This will, I hope, to some extent tend to explain the many imperfections to be found in the 'Catalogue,' and of which no one is more conscious than I am. The present is, so far as I know, the first attempt at a complete list of Australian fossil Organic Remains, and notwithstanding the daily increasing number of species to be still more largely augmented in the future, I trust that the present effort will be found a tolerably faithful record of Australian Palæontology up to the year 1878.

I have endeavoured to make the Catalogue as complete as circumstances will permit, but there are a few papers by colonial authors to which I have not been able to obtain access, and in consequence the data contained in them have been omitted, or imperfectly given.

In the great field of Australian Geology and Palæontology I can lay claim to no greater title than that of a compiler, but as such, I would offer my tribute of respect and admiration

for the never-tiring zeal and energy, the self-denial of all home-comforts, and risk of health displayed by the pioneers of our common science in the Australian colonies, and of whose work, often carried on under the most adverse circumstances, the Catalogue is an epitome.

I refer to such men as the late S. Stutchbury, the late Rev. W. B. Clarke, F.R.S., the late Capt. Sturt, the late Sir T. L. Mitchell, the late L. Leichhardt, A. R. C. Selwyn, F.R.S., C. Gould, F.G.S., Prof. F. McCoy, F.G.S., the late W. Blandowski, Baron F. von Mueller, the late C. D'Oyly, H. Aplin, Norman Taylor, G. H. F. Ulrich, F.G.S., R. B. Smyth, F.G.S., the late R. Daintree, F.G.S., C. S. Wilkinson, F.G.S., Rev. J. E. T. Woods, F.G.S., R. A. F. Murray, H. Y. L. Brown, A. W. Howitt, F.G.S., G. Krefft, and others.

The object of the *Catalogue of Australian Fossils* is first, to give as complete a list as possible of the fossil Organic Remains of the Australian Continent, arranged in Stratigraphical and Zoological order; secondly, to indicate all the descriptions, figures, and more important references to each of the species; and thirdly, to point out the principal localities.

In carrying out this scheme it has been found most convenient to divide the Catalogue into five stratigraphical subdivisions, viz., Silurian, Middle and Upper Palæozoic (including the Devonian and Carboniferous), Mesozoic, Tertiary, and Post-Tertiary, in each of which the genera and species are arranged zoologically in classes, and alphabetically in order, for convenient reference.

Each page is subdivided vertically into four columns.

The first (that on the left hand of the reader) contains the name of the species and their authors; the second column is intended for the stratigraphical subdivisions of the respective sections in which the species occurs; the third and largest column is devoted to the bibliographical references, whilst the fourth contains the localities.

At the head of each page, on the left hand, is given in dark type and within brackets the name of the class to which all the genera contained in that page belong, whilst, in the corresponding corner, on the opposite side of the page, is similarly given the geological section of the work.

After the name of each genus is given that of its author

and the date, then follow within brackets one or more references to descriptions of the genus in question, by its author or other writers as the case may be; but it is to be universally understood that the first reference after a genus is that of its original description or enunciation, so far as my own researches have enabled me to ascertain. Here and there a few synonyms are given, and always the order or family to which the genus belongs.

The references to the species are of two kinds; first, those to works in which a detailed description or figure is to be found, denoted by an * placed before them; secondly, those in which a passing reference only is made to the species, such for instance as the announcement of the first discovery of it in Australian rocks, or of a new locality. When a species is common both to the strata of Australia and those of any other country I have invariably given quotations showing its synonymy and history previous to its discovery in the former. Unless denoted by the sign ! placed after it, every reference has been personally verified and referred to; any errors therefore which may be found are my own, and have arisen during transcription, or are typographical.

The abbreviations used are those usually adopted in works of reference, but in case they should not at once be apparent to the reader, I have given a list of all the Works, Papers, and Reports used and consulted in the compilation, arranged alphabetically under the authors' names, so that the full title of almost every quotation can at once be seen.

In the locality column the respective Colonies in which the places mentioned are situated, are indicated by an abbreviation in italics: thus, *N. S. Wales* (= New South Wales), *Vict.* (= Victoria, formerly Australia Felix), *S. A.* (= South Australia), *W. A.* (= Western Australia), *Qu.* (= Queensland), *Tas.* (= Tasmania).

It affords me great pleasure to offer my sincere thanks to those gentlemen who have rendered me assistance. To the father of Australian Geology, the late Rev. W. B. Clarke, F.R.S., I am indebted for information on many points connected with Colonial Geology, and the general interest he took in my work. Similarly, I am under obligations to Messrs R. B. Smyth and N. Taylor (Melbourne), C. S. Wilkinson (Sydney), R. M. John-

ston (Hobart Town), and the Rev. J. E. Tenison Woods (Sydney). I am indebted to Profs. Owen, F.R.S., T. Rupert Jones, F.R.S., G. Busk, F.R.S., P. M. Duncan, F.R.S., H. A. Nicholson, F.G.S., and G. S. Brady, Messrs T. Davidson, F.R.S., W. Carruthers, F.R.S., and H. B. Brady, F.R.S., Drs R. H. Traquair, F.G.S., H. Woodward, F.R.S., and I. B. Balfour, F.G.S., for information connected with their special subjects. To Messrs G. Sharman, E. T. Newton, F.G.S., and R. B. Newton (*Mus. Pract. Geology*), W. S. Dallas (*Geol. Soc. Lond.*), and C. O. Waterhouse (*Brit. Mus.*), I am indebted for assistance in unravelling obscure points in synonymy. Prof. L. G. de Koninck has placed me under many obligations by his courtesy in forwarding advanced proofs of his fine work on the Australian Palæozoic Fossils, by means of which I have been able to complete the Catalogue at a much earlier date than otherwise could have been done.

Through the kindness of Prof. Geikie, F.R.S., I have had afforded me the opportunity of consulting a large number of works in the Library of the University of Edinburgh; and I am also under obligations for literary assistance to Prof. F. W. Rudler, F.G.S., and Messrs W. Rupert Jones (*Geol. Soc. Lond.*), H. B. Wheatley (*R. Soc. Lond.*), T. W. Newton (*R. School Mines*), R. Kippist (*Linn. Soc. Lond.*), J. Gordon (*R. Soc. Edinb.*), and F. H. Waterhouse (*Zool. Soc. Lond.*). Lastly, the encouragement afforded me by my kind friends Dr J. J. Bigsby, F.R.S., and Mr R. L. Jack, F.G.S. (Brisbane), and my father, has assisted me to surmount many difficulties.

To the liberality and consideration of the Syndics of the Cambridge University Press the publication of the *Catalogue of Australian Fossils* is due, whilst to my friend the Rev. Professor T. G. Bonney, F.G.S., my warmest thanks must be tendered for bringing the manuscript under their notice.

¹ Written *Diplograpsus* by M'Coy. The name was first used by Prof. M'Coy in the *Annals of Natural History* for October, 1850, but the genus was described in the first fasciculus of the above work, 1851.

² As this species, *Phyllo. typus*, Hall, and *D. ovatus*, Barr., are regarded only as varieties of one form by M'Coy, I have given the references under *P. typus*.

¹ This volume bears date 1833, but the memoir containing the description of the genus *Proetus*, is headed, "publié à Trèves en 1831."

² As *Trinucleum*. It was figured, but not described, in the *Philosophical Transactions* (Vol. 20, 1698, p. 279, plate).

Note. The following genera are also known to occur in Victoria, *Beyrichia*, *Cheirurus*, and *Sphaerexochus* (Selwyn, *Quart. Jour. Geol. Soc.* 1858, XIV. pp. 533—34; Bigsby, *Thesaurus*, pp. 43—45, 65, and 73, &c.; M'Coy, *Smyth's Progress Rept.* 1874, p. 34). From New South Wales we have *Beyrichia* (*Clarke*, S. Goldfields, p. 286).

A species of *Trinucleus*, closely allied to, if not identical with, *T. Caractaci*, Murchison (= *C. concentricus*, Eaton), was discovered by the Rev. W. B. Clarke at Yarralumla, N. S. Wales (*Quart. Jour.* IV. p. 66).

³ Prof. M'Coy has recorded the occurrence of two new species of *Fenestella* in Victorian rocks.

⁴ As originally described *Ceriopora* contained a heterogeneous assemblage of generic types, and even as now used for Palaeozoic forms can only be regarded as a provisional or conventional term. It is probable that the majority of the latter will fall into the genus *Rhomopora*, Meek.

⁵ The genus *Atrypa*, with *Leptaena* and *Orthis*, were described by Dalman, as above, in the volume for 1827, which bears 1828 as its date of publication.

Notes: (a) *Lepidodendron*. This genus appears to have been found in Australia at an early date by the explorer Leichhardt, on the Manilla River, borders of Queensland, and by Stutchbury on the Storton River (*Parl. B. B.* Dec. 1854). The Rev. W. B. Clarke reports specimens of *Lepidodendron* from the Peel River; near Goonooagoonoo; to the W. of Bathurst, Wellington Valley; and Canoona on the Fitzroy or Mackenzie River. (*Quart. Jour. Geol. Soc.* xvii. p. 356; S. Goldfields, p. 285; also see Keene, "On the Coal Measures of N. S. Wales, with *Spirifer*, *Glossopteris*, and *Lepidodendron*," *Quart. Journ.* xxi. p. 187.)

(b) *Syringodendron*. Mr Carruthers observed in a collection of plants forwarded to the Geological Society of London by the Rev. W. B. Clarke, a fragment of a *Lepidodendroid* plant which he could not distinguish from *S. (Cyclostigma) Kiltorkense*. Haughton (*Quart. Jour.* xxviii. p. 354).

(c) *Sagenaria*. A fragment in the Daintree Collection appeared to indicate, to Mr Carruthers, a third species of *Lepidodendron*, allied to *S. (Lepidodendron) obovata*. Eichwald (*l.c.*).

(d) *Calamites*, *Stigmaria*, &c. It is to be noted that the Rev. W. B. Clarke states that *Stigmaria*, *Sigillaria*, *Halonis* and *Calamites* are common in the Carboniferous rocks of N. S. Wales. (*Quart. Jour.* iv. p. 60.)

(e) *Coniferous Trees*. Trunks of *Coniferae* were found by the same observer on the coast of N. S. Wales at Wanniarwarree in the same beds with *Spirifers* (*Quart. Jour.* iv. p. 60; see also Nicol, *Edinburgh New Phil. Jour.* 1832, iv. p. 153; Dana, *Geol. U.S. Exploring Exp.* p. 714).

² The genus *Inoceramus* was proposed and described in a paper read before the Linnean Society on Nov. 1st, 1814, by Mr J. Sowerby, "On a fossil shell of a fibrous structure, &c." The description appeared in pt. 2, vol. XIII. *Linn. Trans.*, which Mr R. Kippist, Librarian to the Society, informs me was published in Dec. 1822. In the mean time *Parkinson* published a description of the genus (*Trans. Geol. Soc.* v. p. 55), the latter work bearing date 1819. This must therefore be accepted as the real date of the publication of *Inoceramus*, and not 1814, as is usually given in catalogues and works.

Notomya or *Mæonia* may just as well belong to *Pachydomus*, and *vice versa*" (*Pal. Indica*, III. p. 83). *Mæonia* (*Myonia*), *Cleobis*, and *Pyramus* were proposed as new genera by Prof. Dana in 1847, but in the next year he suggested that the various species contained in the three so-called genera should be brought together under the one name *Mæonia*, "as the gradations are such that it is difficult to draw lines of distinction" (*Amer. Jour. Sc.* 1848, v. p. 434). Again he says, "the divisions may, perhaps, form sub-genera" (*Geol. U. S. Explor. Exped.* p. 694). The section *Pyramus* or *Pyramia* is stated to correspond with *Notomya*, M'Coy, and is slightly antecedent to it in date. As, however, I agree with Dr Stoliczka in considering M'Coy's description "far more intelligible than that given by Dana of his genus," and as in addition M'Coy no doubt correctly indicated the affinities of his genus, I prefer to adopt the latter for the whole of the species which have been referred to these genera. In dealing with this portion of my subject I have experienced the utmost difficulty, and can only offer the present synonymy as a temporary solution, until some palæontologist is afforded an opportunity of working the subject out in detail. To his previous remarks on this subject Dr Stoliczka adds, "neither in the text nor Atlas of his later work does Dana mention which of the species belong to each of the three sub-genera; and from the descriptions and figures the reader will find it very difficult to arrive at anything like accuracy of determination."

¹ The name *Mytilus* should give place to that of *Perna*, Adanson, proposed in the *Voy. au Sénégal* (p. 217). Although Adanson was not a binomial writer, *Perna*, like many other of his genera, was perfectly well characterised, and ought to be adopted.

Both these names have been given to British Carboniferous species, but whether identical species are meant I am unable to say.

Note. A Ventriculite is recorded by Mr F. T. Gregory, from the Greenough River, West Australia (Quart. Jour. Geol. Soc. xvii. p. 483). The siliceous cast of a Chalk *Micraster* was recognised by Mr Charles Moore, in a collection of fossils in the Exhibition of 1862, from the Greenough Flats, West Australia (*ibid.* xxvi. p. 28), and a species of Entomostraca from another West Australian collection (*l. c.* p. 231). In the Wollumbilla collection, scars on the interior of a *Panopaea* enabled Mr Moore to surmise the occurrence of *Cirripedes* in Australian Oolitic rocks (*l. c.* p. 243).

¹ The term *Cyprinidae* having been long ago used in Ichthyology, Dr Stoliczka proposed to adopt in its place that of *Glossidae*, Gray (*Pal. Indica*, III. p. 183).

² According to Bronn, this name was first used by Agassiz in 1836, but according to Agassiz's own statement, it first appeared attached to certain plates of his "Études Critiques," submitted to the Geological Section of the meeting of Swiss Naturalists at Basle in 1838. It also appeared during this year in a paper by M. Gressly, "Observations Géologiques sur le Jura Soleurois" (*Nouv. Mém. Soc. Helvétique des Sci. Nat. Neuchâtel*), but appears to have been first definitely described in 1842 (*Études Crit.* p. 1). *Goniomya* is synonymous with *Lysianassa*, Münster, 1838 (*N. Jahrbuch*, 1838, p. 55), but the latter, according to Bronn, had already been used for a genus of Crustacea by Milne-Edwards.

¹ *Pectunculus*.—This name was first used by *Adanson*, in 1757 (*Voy. Sénégal*, p. 240), and again by *Lamarck*, in 1799, but in a different sense. The *Lamarckian* genus appears to be identical with *Axinea*, *Poli*, 1791 (*Testacea u. Sicilia*), which has precedence of it, and should therefore take the place of *Pectunculus*, *Lamarck* (non *Adanson*).

¹ I have already pointed out in the *Geological Magazine* (Dec. 2, 1877, iv. p. 417 note), that Prof. Busk's name has been previously used in a generic sense by the late Mr Alder for a recent Polyzoan (see Alder, *Trans. Tyneside Nat. Field Club*, iii. p. 156). It will in consequence be necessary for the author of the above genus to make some alteration in his name.

THE HOLY SCRIPTURES, &c.

THE CAMBRIDGE PARAGRAPH BIBLE of the Authorized English Version, with the Text Revised by a Collation of its Early and other Principal Editions, the Use of the Italic Type made uniform, the Marginal References remodelled, and a Critical Introduction prefixed, by F. H. A. SCRIVENER, M.A., LL.D., Editor of the Greek Testament, Codex Augiensis, &c., and one of the Revisers of the Authorized Version. Crown 4to. gilt. 21s.

From the *Times*.

"Students of the Bible should be particularly grateful (to the Cambridge University Press) for having produced, with the able assistance of Dr Scrivener, a complete critical edition of the Authorized Version of the English Bible, an edition such as, to use the words of the Editor, 'would have been executed long ago had this version been nothing more than the greatest and best known of English classics.' Falling at a time when the formal revision of this version has been undertaken by a distinguished company of scholars and divines, the publication of this edition must be considered most opportune."

From the *Athenæum*.

"Apart from its religious importance, the English Bible has the glory, which but few sister versions indeed can claim, of being the chief classic of the language, of having, in conjunction with Shakspeare, and in an immeasurable degree more than he, fixed the language beyond any possibility of important change. Thus the recent contributions to the

literature of the subject, by such workers as Mr Francis Fry and Canon Westcott, appeal to a wide range of sympathies; and to these may now be added Dr Scrivener, well known for his labours in the cause of the Greek Testament criticism, who has brought out, for the Syndics of the Cambridge University Press, an edition of the English Bible, according to the text of 1611, revised by a comparison with later issues on principles stated by him in his Introduction. Here he enters at length into the history of the chief editions of the version, and of such features as the marginal notes, the use of italic type, and the changes of orthography, as well as into the most interesting question as to the original texts from which our translation is produced."

From the *London Quarterly Review*.

"The work is worthy in every respect of the editor's fame, and of the Cambridge University Press. The noble English Version, to which our country and religion owe so much, was probably never presented before in so perfect a form."

THE CAMBRIDGE PARAGRAPH BIBLE. STUDENT'S EDITION, on *good writing paper*, with one column of print and wide margin to each page for MS. notes. This edition will be found of great use to those who are engaged in the task of Biblical criticism. Two Vols. Crown 4to. gilt. 31s. 6d.

"The value of this reprint is considerable to liturgical students, who will now be able to consult in their own libraries a work absolutely indispensable to a right understanding of the history of the Prayer-Book, but which till now

usually necessitated a visit to some public library, since the rarity of the volume made its cost prohibitory to all but a few."—*Literary Churchman*.

FASCICULUS II. In quo continentur PSALTERIUM, cum ordinario Officii totius hebdomadae juxta Horas Canonicas, et proprio Completorii, LITANIA, COMMUNE SANCTORUM, ORDINARIUM MISSAE CUM CANONE ET XIII MISSIS, &c. &c. Demy 8vo. 12s.

"Not only experts in liturgiology, but all persons interested in the history of the Anglican Book of Common Prayer, will be grateful to the Syndicate of the Cambridge University Press for forwarding the publication of the volume which bears the above title."—*Notes and Queries*.

"Cambridge has worthily taken the lead with the Breviary, which is of especial value for that part of the reform of the Prayer-Book which will fit it for the wants of our time."—*Church Quarterly Review*.

FASCICULUS III. In quo continetur PROPRIUM SANCTORUM quod et sanctorale dicitur, una cum accentuario. Demy 8vo. 15s.

* * An Introduction of 130 pages, prefixed to this volume, contains (besides other interesting information as to the Breviary and its contents) Mr BRADSHAW'S exhaustive lists of editions and copies of the Breviary and allied liturgical books.

THE PARALLEL NEW TESTAMENT, GREEK AND ENGLISH, being the **Authorised Version** set forth in 1611 arranged in Parallel Columns with the **Revised Version** of 1881, and with the original Greek, as edited by F. H. A. SCRIVENER, M.A., D.C.L., LL.D. Crown 8vo. 12s. 6d. *The Revised Version is the Joint Property of the Universities of Cambridge and Oxford.*

THE OLD TESTAMENT IN GREEK ACCORDING TO THE SEPTUAGINT. Edited by H. B. SWETE, D.D., Honorary Fellow of Gonville and Caius College. Vol. I. Genesis—IV Kings. Crown 8vo. 7s. 6d.

Volume II. By the same Editor.

"Der Zweck dieser Ausgabe, den ganzen in den erwähnten Hss. vorliegenden kritischen Stoff übersichtlich zusammenzustellen und dem Benützer das Nachschlagen in den Separat-Ausgaben jener Codices zu ersparen, ist hier in compendiösester Weise vortrefflich erreicht. Bezüglich der Klarheit, Schönheit und Correctheit des Drucks gebührt der Ausgabe das höchste Lob. Da zugleich der Preis sehr niedrig gestellt ist, so ist zu hoffen und zu wünschen, dass sie auch außerhalb des englischen Sprachkreises ihre Verbreitung finden werde.

[*In the Press.*
Bezüglich der Accente und Spiritus der Eigennamen sind die Herausg. ihre eigenen Wege gegangen."—*Deutsche Literaturzeitung.*

"The Edition has been executed in the very best style of Cambridge accuracy, which has no superior anywhere, and this is enough to put it at the head of the list of editions for manual use."—*Academy.*

"An edition, which for ordinary purposes will probably henceforth be that in use by readers of the Septuagint."—*Guardian.*

THE BOOK OF ECCLESIASTES, with Notes and Introduction. By the Very Rev. E. H. PLUMPTRE, D.D., Dean of Wells. Large Paper Edition. Demy 8vo. 7s. 6d.

THE GOSPEL ACCORDING TO ST MATTHEW in Anglo-Saxon and Northumbrian Versions, synoptically arranged: with Collations exhibiting all the Readings of all the MSS. Edited by the Rev. W. W. SKEAT, Litt.D., Elrington and Bosworth Professor of Anglo-Saxon. **New Edition.** Demy 4to. 10s.

"By the publication of the present volume Prof. Skeat has brought to its conclusion a work planned more than a half century ago by the late J. M. Kemble... Students of English have every reason to be grateful to Prof. Skeat

for the scholarly and accurate way in which he has performed his laborious task. Thanks to him we now possess a reliable edition of all the existing MSS. of the old English Gospels."—*Academy.*

THE GOSPEL ACCORDING TO ST MARK, uniform with the preceding, by the same Editor. Demy 4to. 10s.

THE GOSPEL ACCORDING TO ST LUKE, uniform with the preceding, by the same Editor. Demy 4to. 10s.

THE GOSPEL ACCORDING TO ST JOHN, uniform with the preceding, by the same Editor. Demy 4to. 10s.

"*The Gospel according to St John, in Anglo-Saxon and Northumbrian Versions:* completes an undertaking designed and commenced by that distinguished scholar, J. M. Kemble, some forty years ago. Of the par-

ticular volume now before us, we can only say it is worthy of its two predecessors. We repeat that the service rendered to the study of Anglo-Saxon by this Synoptic collection cannot easily be overstated."—*Contemporary Review.*

THE FOUR GOSPELS (as above) bound in one volume, price 30s.

THE POINTED PRAYER BOOK, being the Book of Common Prayer with the Psalter or Psalms of David, pointed as they are to be sung or said in Churches. Royal 24mo. 1s. 6d.

THE MISSING FRAGMENT OF THE LATIN TRANSLATION OF THE FOURTH BOOK OF EZRA, discovered, and edited with an Introduction and Notes, and a facsimile of the MS., by ROBERT L. BENSLEY, M.A., Lord Almoner's Professor of Arabic. Demy 4to. 10s.

"It has been said of this book that it has added a new chapter to the Bible, and, startling as the statement may at first sight appear, it is no exaggeration of the actual fact, if by the

Bible we understand that of the larger size which contains the Apocrypha, and if the Second Book of Esdras can be fairly called a part of the Apocrypha."—*Saturday Review*.

Griechischen Liturgien sicher gelegt hat."—ADOLPH HARNACK, *Theologische Literaturzeitung*.

THEODORE OF MOPSUESTIA'S COMMENTARY ON THE MINOR EPISTLES OF S. PAUL. The Latin Version with the Greek Fragments, edited from the MSS. with Notes and an Introduction, by H. B. SWETE, D.D. In Two Volumes. Volume I., containing the Introduction, with Facsimiles of the MSS., and the Commentary upon Galatians—Colossians. Demy 8vo. 12s.

"It is the result of thorough, careful, and patient investigation of all the points bearing on the subject, and the results are presented with admirable good sense and modesty."—*Guardian*.

"In dem oben verzeichneten Buche liegt uns die erste Hälfte einer vollständigen, ebenso sorgfältig gearbeiteten wie schön ausgestatteten Ausgabe des Commentars mit ausführlichen Prolegomena und reichhaltigen kritischen und erläuternden Anmerkungen vor."—*Literarisches Centralblatt*.

"Auf Grund dieser Quellen ist der Text bei Swete mit musterhafter Akribie hergestellt. Aber auch sonst hat der Herausgeber mit unermüdlichem Fleisse und eingehend-

ster Sachkenntniss sein Werk mit allen denjenigen Zugaben ausgerüstet, welche bei einer solchen Text-Ausgabe nur irgend erwartet werden können. . . . Von den drei Haupt-handschriften . . . sind vortreffliche photographische Facsimile's beigegeben, wie überhaupt das ganze Werk von der *University Press* zu Cambridge mit bekannter Eleganz ausgestattet ist."—*Theologische Literaturzeitung*.

"Herrn Swete's Leistung ist eine so tüchtige dass wir das Werk in keinen besseren Händen wissen möchten, und mit den sichersten Erwartungen auf das Gelingen der Fortsetzung entgegen sehen."—*Göttingische gelehrte Anzeigen* (Sept. 1881).

PEARSON'S EXPOSITION OF THE CREED, edited by TEMPLE CHEVALLIER, B.D. New Edition. Revised by R. SINKER, B.D., Librarian of Trinity College. Demy 8vo. 12s.

"A new edition of Bishop Pearson's famous work *On the Creed* has just been issued by the Cambridge University Press. It is the well-known edition of Temple Chevallier, thoroughly overhauled by the Rev. R. Sinker, of Trinity

College. Altogether this appears to be the most complete and convenient edition as yet published of a work which has long been recognised in all quarters as a standard one."—*Guardian*.

AN ANALYSIS OF THE EXPOSITION OF THE CREED written by the Right Rev. JOHN PEARSON, D.D. late Lord Bishop of Chester, by W. H. MILL, D.D. Demy 8vo. 5s.

SELECT DISCOURSES, by JOHN SMITH, late Fellow of Queens' College, Cambridge. Edited by H. G. WILLIAMS, B.D. late Professor of Arabic. Royal 8vo. 7s. 6d.

"The 'Select Discourses' of John Smith, collected and published from his papers after his death, are, in my opinion, much the most considerable work left to us by this Cambridge School [the Cambridge Platonists]. They have a right to a place in English literary history."—Mr MATTHEW ARNOLD, in the *Contemporary Review*.

"Of all the products of the Cambridge School, the 'Select Discourses' are perhaps the highest, as they are the most accessible and the most widely appreciated...and indeed

no spiritually thoughtful mind can read them unmoved. They carry us so directly into an atmosphere of divine philosophy, luminous with the richest lights of meditative genius... He was one of those rare thinkers in whom largeness of view, and depth, and wealth of poetic and speculative insight, only served to evoke more fully the religious spirit, and while he drew the mould of his thought from Plotinus, he vivified the substance of it from St Paul."—Principal TULLOCH, *Rational Theology in England in the 17th Century*.

THE HOMILIES, with Various Readings, and the Quotations from the Fathers given at length in the Original Languages. Edited by the late G. E. CORRIE, D.D. Demy 8vo. 7s. 6d.

POEMS OF BEHĀ ED DIN ZOHEIR OF EGYPT. With a Metrical Translation, Notes and Introduction, by E. H. PALMER, M.A., Barrister-at-Law of the Middle Temple, late Lord Almoner's Professor of Arabic, formerly Fellow of St John's College, Cambridge. 2 vols. Crown 4to.

Vol. I. **THE ARABIC TEXT.** 10s. 6d.

Vol. II. **ENGLISH TRANSLATION.** 10s. 6d.; cloth extra. 15s.

"We have no hesitation in saying that in both Prof. Palmer has made an addition to Oriental literature for which scholars should be grateful; and that, while his knowledge of Arabic is a sufficient guarantee for his mastery of the original, his English compositions are distinguished by versatility, command of language, rhythmical cadence, and, as we have

remarked, by not unskilful imitations of the styles of several of our own favourite poets, living and dead."—*Saturday Review*.

"This sumptuous edition of the poems of Behā-ed-din Zoheir is a very welcome addition to the small series of Eastern poets accessible to readers who are not Orientalists."—*Academy*.

THE CHRONICLE OF JOSHUA THE STYLITE, composed in Syriac A.D. 507 with an English translation and notes, by W. WRIGHT, LL.D., Professor of Arabic. Demy 8vo. 10s. 6d.

"Die lehrreiche kleine Chronik Josuas hat nach Assemani und Martin in Wright einen dritten Bearbeiter gefunden, der sich um die Emendation des Textes wie um die Erklärung der Realien wesentlich verdient gemacht hat. . . . Ws. Josua-Ausgabe ist eine sehr dankenswerte Gabe und besonders empfehlenswert als

ein Lehrmittel für den syrischen Unterricht; es erscheint auch gerade zur rechten Zeit, da die zweite Ausgabe von Roedigers syrischer Chrestomathie im Buchhandel vollständig vergriffen und diejenige von Kirsch-Bernstein nur noch in wenigen Exemplaren vorhanden ist."—*Deutsche Literaturzeitung*.

CATALOGUE OF THE BUDDHIST SANSKRIT MANUSCRIPTS in the University Library, Cambridge. Edited by C. BENDALL, M.A., Fellow of Gonville and Caius College. Demy 8vo. 12s.

"It is unnecessary to state how the compilation of the present catalogue came to be placed in Mr Bendall's hands; from the character of his work it is evident the selection was judicious, and we may fairly congratulate

those concerned in it on the result. . . . Mr Bendall has entitled himself to the thanks of all Oriental scholars, and we hope he may have before him a long course of successful labour in the field he has chosen."—*Athenæum*.

GREEK AND LATIN CLASSICS, &c.

SOPHOCLES: The Plays and Fragments, with Critical Notes, Commentary, and Translation in English Prose, by R. C. JEBB, Litt.D., LL.D., Professor of Greek in the University of Glasgow.

Part I. Oedipus Tyrannus. Demy 8vo. *New Edition.* 12s. 6d.

Part II. Oedipus Coloneus. Demy 8vo. 12s. 6d.

[*New Edition. In the Press.*]

Part III. Antigone. Demy 8vo. 12s. 6d.

Part IV. Philoctetes.

[*In the Press.*]

"Of his explanatory and critical notes we can only speak with admiration. Thorough scholarship combines with taste, erudition, and boundless industry to make this first volume a pattern of editing. The work is made complete by a prose translation, upon pages alternating with the text, of which we may say shortly that it displays sound judgment and taste, without sacrificing precision to poetry of expression."—*The Times*.

"Professor Jebb's edition of Sophocles is already so fully established, and has received such appreciation in these columns and elsewhere, that we have judged this third volume when we have said that it is of a piece with the others. The whole edition so far exhibits perhaps the most complete and elaborate editorial work which has ever appeared."—*Saturday Review*.

"Prof. Jebb's keen and profound sympathy, not only with Sophocles and all the best of ancient Hellenic life and thought, but also with modern European culture, constitutes him an ideal interpreter between the ancient writer and the modern reader."—*Athenæum*.

"It would be difficult to praise this third instalment of Professor Jebb's unequalled edition of Sophocles too warmly, and it is almost a work of supererogation to praise it at all. It is equal, at least, and perhaps superior, in merit, to either of his previous instalments; and when this is said, all is said. Yet we cannot refrain from formally recognising once more the consummate Greek scholarship of the editor, and from once more doing grateful homage to his masterly tact and literary skill, and to his unwearied and marvellous industry."—*Spectator*.

ARISTOTLE.—ΠΕΡΙ ΨΥΧΗΣ. ARISTOTLE'S PSYCHOLOGY, in Greek and English, with Introduction and Notes, by EDWIN WALLACE, M.A., late Fellow and Tutor of Worcester College, Oxford. Demy 8vo. 18s.

"The notes are exactly what such notes ought to be,—helps to the student, not mere displays of learning. By far the more valuable parts of the notes are neither critical nor literary, but philosophical and expository of the thought, and of the connection of thought, in the treatise itself. In this relation the notes are invaluable. Of the translation, it may be said that an English reader may fairly master by means of it this great treatise of Aristotle."—*Spectator*.

"Wallace's Bearbeitung der Aristotelischen Psychologie ist das Werk eines denkenden und in allen Schriften des Aristoteles und grössten-theils auch in der neueren Litteratur zu denselben belebten Mannes. . . Der schwächste Teil der Arbeit ist der kritische. . . Aber in allen diesen Dingen liegt auch nach der Absicht des Verfassers nicht der Schwerpunkt seiner Arbeit, sondern."—Prof. Susemihl in *Philologische Wochenschrift*.

ARISTOTLE.—ΠΕΡΙ ΔΙΚΑΙΟΣΤΗΝΗΣ. THE FIFTH BOOK OF THE NICOMACHEAN ETHICS OF ARISTOTLE. Edited by HENRY JACKSON, Litt.D., Fellow of Trinity College, Cambridge. Demy 8vo. 6s.

"It is not too much to say that some of the points he discusses have never had so much light thrown upon them before. . . Scholars

will hope that this is not the only portion of the Aristotelian writings which he is likely to edit."—*Athenæum*.

London: C. F. CLAY & SONS, Cambridge University Press Warehouse, Ave Maria Lane.

ARISTOTLE. THE RHETORIC. With a Commentary by the late E. M. COPE, Fellow of Trinity College, Cambridge, revised and edited by J. E. SANDYS, Litt.D. With a biographical Memoir by the late H. A. J. MUNRO, Litt.D. 3 Vols., Demy 8vo. **Now reduced to 21s. (originally published at 31s. 6d.)**

"This work is in many ways creditable to the University of Cambridge. If an English student wishes to have a full conception of what is contained in the *Rhetoric* of Aristotle, to Mr Cope's edition he must go."—*Academy*.

"Mr Sandys has performed his arduous duties with marked ability and admirable tact. . . . In every part of his work—revising, supplementing, and completing—he has done exceedingly well."—*Examiner*.

PINDAR. OLYMPIAN AND PYTHIAN ODES. With Notes Explanatory and Critical, Introductions and Introductory Essays. Edited by C. A. M. FENNEL, Litt.D., late Fellow of Jesus College. Crown 8vo. 9s.

"Mr Fennell deserves the thanks of all classical students for his careful and scholarly edition of the Olympian and Pythian odes. He brings to his task the necessary enthusiasm for

his author, great industry, a sound judgment, and, in particular, copious and minute learning in comparative philology."—*Athenæum*.

— **THE ISTHMIAN AND NEMEAN ODES.** By the same Editor. Crown 8vo. 9s.

"... As a handy and instructive edition of a difficult classic no work of recent years surpasses Mr Fennell's 'Pindar.'"—*Athenæum*.

"This work is in no way inferior to the previous volume. The commentary affords

valuable help to the study of the most difficult of Greek authors, and is enriched with notes on points of scholarship and etymology which could only have been written by a scholar of very high attainments."—*Saturday Review*.

PRIVATE ORATIONS OF DEMOSTHENES, with Introductions and English Notes, by the late F. A. PALEY, M.A. and J. E. SANDYS, Litt.D. Fellow and Tutor of St John's College, and Public Orator in the University of Cambridge.

PART I. Contra Phormionem, Lacritum, Pantaenetum, Boeotum de Nomine, Boeotum de Dote, Dionysodorum. **New Edition.** Crown 8vo. 6s.

"Mr Paley's scholarship is sound and accurate, his experience of editing wide, and if he is content to devote his learning and abilities to the production of such manuals as these, they will be received with gratitude throughout the higher schools of the country. Mr Sandys is deeply read in the German

literature which bears upon his author, and the elucidation of matters of daily life, in the delineation of which Demosthenes is so rich, obtains full justice at his hands. . . . We hope this edition may lead the way to a more general study of these speeches in schools than has hitherto been possible."—*Academy*.

PART II. Pro Phormione, Contra Stephanum I. II.; Nicostратum, Cononem, Calliclem. **New Edition.** Crown 8vo. 7s. 6d.

"It is long since we have come upon a work evincing more pains, scholarship, and varied research and illustration than Mr Sandys's contribution to the 'Private Orations of De-

mosthenes'."—*Saturday Review*.

"... the edition reflects credit on Cambridge scholarship, and ought to be extensively used."—*Athenæum*.

DEMOSTHENES AGAINST ANDROTION AND AGAINST TIMOCRATES, with Introductions and English Commentary, by WILLIAM WAYTE, M.A., late Professor of Greek, University College, London. Crown 8vo. 7s. 6d.

"These speeches are highly interesting, as illustrating Attic Law, as that law was influenced by the exigencies of politics. . . . As vigorous examples of the great orator's style,

they are worthy of all admiration. . . . Besides a most lucid and interesting introduction, Mr Wayte has given the student effective help in his running commentary."—*Spectator*.

THE BACCHAE OF EURIPIDES. With Introduction, Critical Notes, and Archæological Illustrations, by J. E. SANDYS, Litt.D. New and Enlarged Edition. Crown 8vo. 12s. 6d.

"Of the present edition of the *Bacchæ* by Mr Sandys we may safely say that never before has a Greek play, in England at least, had fuller justice done to its criticism, interpretation, and archæological illustration, whether for the young student or the more advanced scholar. The Cambridge Public Orator may be said to have taken the lead in issuing a complete edition of a Greek play, which is destined perhaps to gain redoubled favour now that the study of ancient monuments has been applied to its illustration."—*Saturday Review*.

"The volume is interspersed with well-executed woodcuts, and its general attractiveness of form reflects great credit on the University Press. In the notes Mr Sandys has more than sustained his well-earned reputation as a careful and learned editor, and shows considerable advance in freedom and lightness of style. . . . Under such circumstances it is superfluous to say that for the purposes of teachers and advanced students this handsome edition far surpasses all its predecessors."—*Athenæum*.

THE TYPES OF GREEK COINS. By PERCY GARDNER, Litt. D., F.S.A. With 16 Autotype plates, containing photographs of Coins of all parts of the Greek World. Impl. 4to. Cloth extra, £1. 11s. 6d.; Roxburgh (Morocco back), £2. 2s.

"Professor Gardner's book is written with such lucidity and in a manner so straightforward that it may well win converts, and it may

be distinctly recommended to that omnivorous class of readers—'men in the schools'."—*Saturday Review*.

ESSAYS ON THE ART OF PHEIDIAS. By C. WALDSTEIN, Litt. D., Phil. D., Reader in Classical Archæology in the University of Cambridge. Royal 8vo. With numerous Illustrations. 16 Plates. Buckram, 30s.

"His book will be universally welcomed as a very valuable contribution towards a more thorough knowledge of the style of Pheidias."—*The Academy*.

"'Essays on the Art of Pheidias' form an extremely valuable and important piece of work. . . . Taking it for the illustrations alone, it is an exceedingly fascinating book."—*Times*.

AN INTRODUCTION TO GREEK EPIGRAPHY.

Part I. The Archaic Inscriptions and the Greek Alphabet by E. S. ROBERTS, M.A., Fellow and Tutor of Gonville and Caius College. Demy 8vo. With illustrations. 18s.

"We will say at once that Mr Roberts appears to have done his work very well. The book is clearly and conveniently arranged. The inscriptions are naturally divided according to the places to which they belong. Under each head are given illustrations sufficient to show the characteristics of the writing, one copy in letters of the original form (sometimes a facsimile) being followed by another in the usual cursive. References, which must have cost great labour, are given to the scattered

notices bearing on each document. Explanatory remarks either accompany the text or are added in an appendix. To the whole is prefixed a sketch of the history of the alphabet up to the terminal date. At the end the result is resumed in general tables of all the alphabets, classified according to their connexions; and a separate table illustrates the alphabet of Athens. The volume contains about five hundred inscriptions, and forms a moderate octavo of about four hundred pages."—*Saturday Review*.

M. TULLI CICERONIS AD M. BRUTUM ORATOR.

A revised text edited with Introductory Essays and with critical and explanatory notes, by J. E. SANDYS, Litt.D. Demy 8vo. 16s.

"This volume, which is adorned with several good woodcuts, forms a handsome and welcome addition to the Cambridge editions of Cicero's works."—*Athenæum*.

"A model edition."—*Spectator*.
"The commentary is in every way worthy of the editor's high reputation."—*Academy*.

A SELECTION OF THE STATE TRIALS. By J. W. WILLIS-BUND, M.A., LL.B., Professor of Constitutional Law and History, University College, London. Crown 8vo. Vols. I. and II. In 3 parts. **Now reduced to 30s.** (originally published at 46s.)

"This work is a very useful contribution to that important branch of the constitutional history of England which is concerned with the

growth and development of the law of treason, as it may be gathered from trials before the ordinary courts."—*The Academy*.

THE FRAGMENTS OF THE PERPETUAL EDICT OF SALVIUS JULIANUS, collected, arranged, and annotated by BRYAN WALKER, M.A., LL.D., late Law Lecturer of St John's College, and Fellow of Corpus Christi College, Cambridge. Crown 8vo. 6s.

"In the present book we have the fruits of the same kind of thorough and well-ordered study which was brought to bear upon the notes to the Commentaries and the Institutes. . . Hitherto the Edict has been almost inaccessible to the ordinary English student, and

such a student will be interested as well as perhaps surprised to find how abundantly the extant fragments illustrate and clear up points which have attracted his attention in the Commentaries, or the Institutes, or the Digest."—*Law Times*.

London: C. F. CLAY & SONS, Cambridge University Press Warehouse, Ave Maria Lane.

BRACTON'S NOTE BOOK. A Collection of Cases decided in the King's Courts during the reign of Henry the Third, annotated by a Lawyer of that time, seemingly by Henry of Bratton. Edited by F. W. MATTLAND of Lincoln's Inn, Barrister at Law, Downing Professor of the Laws of England. 3 vols. Demy 8vo. Buckram. £3. 3s. *Net.*

AN INTRODUCTION TO THE STUDY OF JUSTINIAN'S DIGEST. Containing an account of its composition and of the Jurists used or referred to therein. By HENRY JOHN ROBY, M.A., formerly Prof. of Jurisprudence, University College, London. Demy 8vo. 9s.

JUSTINIAN'S DIGEST. Lib. VII., Tit. I. De Usufructu, with a Legal and Philological Commentary. By H. J. ROBY, M.A. Demy 8vo. 9s.

Or the Two Parts complete in One Volume. Demy 8vo. 18s.

"Not an obscurity, philological, historical, or legal, has been left unsifted. More informing aid still has been supplied to the student of the Digest at large by a preliminary account, covering nearly 300 pages, of the mode of composition of the Digest, and of the jurists

whose decisions and arguments constitute its substance. Nowhere else can a clearer view be obtained of the personal succession by which the tradition of Roman legal science was sustained and developed."—*The Times.*

THE COMMENTARIES OF GAIUS AND RULES OF ULPIAN. With a Translation and Notes, by J. T. ABDY, LL.D., Judge of County Courts, late Regius Professor of Laws in the University of Cambridge, and the late BRYAN WALKER, M.A., LL.D., New Edition by BRYAN WALKER. Crown 8vo. 16s.

"As scholars and as editors Messrs Abdy and Walker have done their work well . . . For one thing the editors deserve special commendation. They have presented Gaius to the reader with few notes and those merely by

way of reference or necessary explanation. Thus the Roman jurist is allowed to speak for himself, and the reader feels that he is really studying Roman law in the original, and not a fanciful representation of it."—*Athenæum.*

THE INSTITUTES OF JUSTINIAN, translated with Notes by J. T. ABDY, LL.D., and the late BRYAN WALKER, M.A., LL.D. Crown 8vo. 16s.

"We welcome here a valuable contribution to the study of jurisprudence. The text of the *Institutes* is occasionally perplexing, even to practised scholars, whose knowledge of classical models does not always avail them in dealing with the technicalities of legal phraseology. Nor can the ordinary dictionaries be expected to furnish all the help that is wanted. This translation will then be of great use. To

the ordinary student, whose attention is distracted from the subject-matter by the difficulty of struggling through the language in which it is contained, it will be almost indispensable."—*Spectator.*

"The notes are learned and carefully compiled, and this edition will be found useful to students."—*Law Times.*

THE LIFE AND LETTERS OF THE REVEREND

ADAM SEDGWICK, LL.D., F.R.S., Fellow of Trinity College, Cambridge, and Woodwardian Professor of Geology from 1818 to 1873. (Dedicated, by special permission, to Her Majesty the Queen.) By JOHN WILLIS CLARK, M.A., F.S.A., formerly Fellow of Trinity College, and THOMAS M'KENNY HUGHES, M.A., Woodwardian Professor of Geology. 2 vols. Demy 8vo. [In the Press.]

LIFE AND TIMES OF STEIN, OR GERMANY AND PRUSSIA IN THE NAPOLEONIC AGE, by J. R. SEELEY, M.A., Regius Professor of Modern History in the University of Cambridge, with Portraits and Maps. 3 Vols. Demy 8vo. 30s.

"DR BUSCH's volume has made people think and talk even more than usual of Prince Bismarck, and Professor Seeley's very learned work on Stein will turn attention to an earlier and an almost equally eminent German statesman.... He was one, perhaps the chief, of the illustrious group of strangers who came to the rescue of Prussia in her darkest hour, about the time of the inglorious Peace of Tilsit, and who laboured to put life and order into her dispirited army, her impoverished finances, and her inefficient Civil Service. Englishmen will feel very pardonable pride at seeing one of their countrymen undertake to write the history of a period from the investigation of

which even laborious Germans are apt to shrink."—*Times*.

"In a notice of this kind scant justice can be done to a work like the one before us; no short *résumé* can give even the most meagre notion of the contents of these volumes, which contain no page that is superfluous, and none that is uninteresting.... To understand the Germany of to-day one must study the Germany of many yesterdays, and now that study has been made easy by this work, to which no one can hesitate to assign a very high place among those recent histories which have aimed at original research."—*Athenæum*.

THE DESPATCHES OF EARL GOWER, English Ambassador at the court of Versailles from June 1790 to August 1792, to which are added the Despatches of Mr Lindsay and Mr Munro, and the Diary of Lord Palmerston in France during July and August 1791. Edited by OSCAR BROWNING, M.A. Demy 8vo. 15s.

THE GROWTH OF ENGLISH INDUSTRY AND COMMERCE. By W. CUNNINGHAM, D.D. With Maps and Charts. Crown 8vo. 12s.

"MR CUNNINGHAM is not likely to disappoint any readers except such as begin by mistaking the character of his book. He does not promise, and does not give, an account of the dimensions to which English industry and com-

merce have grown. It is with the process of growth that he is concerned; and this process he traces with the philosophical insight which distinguishes between what is important and what is trivial."—*Guardian*.

CHRONOLOGICAL TABLES OF GREEK HISTORY.

Accompanied by a short narrative of events, with references to the sources of information and extracts from the ancient authorities, by CARL PETER. Translated from the German by G. CHAWNER, M.A., Fellow of King's College, Cambridge. Demy 4to. 10s.

KINSHIP AND MARRIAGE IN EARLY ARABIA,

by W. ROBERTSON SMITH, M.A., LL.D., Fellow of Christ's College and University Librarian. Crown 8vo. 7s. 6d.

"It would be superfluous to praise a book so learned and masterly as Professor Robertson Smith's; it is enough to say that no student of

early history can afford to be without *Kinship in Early Arabia*."—*Nature*.

TRAVELS IN NORTHERN ARABIA IN 1876 AND

1877. BY CHARLES M. DOUGHTY, of Gonville and Caius College. With Illustrations and a Map. 2 vols. Demy 8vo. £3. 3s.

"This is in several respects a remarkable book. It records the ten years' travels of the author throughout Northern Arabia, in the Hejas and Nejd, from Syria to Mecca. No doubt this region has been visited by previous travellers, but none, we venture to think, have done their work with so much thoroughness or with more enthusiasm and love."—*Times*.

"We judge this book to be the most remarkable record of adventure and research which has been published to this generation."—*Spectator*.

"Its value as a storehouse of knowledge simply cannot be exaggerated."—*Saturday Review*.

THE ARCHITECTURAL HISTORY OF THE UNIVERSITY OF CAMBRIDGE AND OF THE COLLEGES OF CAMBRIDGE AND ETON, by the late ROBERT WILLIS, M.A. F.R.S., Jacksonian Professor in the University of Cambridge. Edited with large Additions and brought up to the present time by JOHN WILLIS CLARK, M.A., formerly Fellow of Trinity College, Cambridge. Four Vols. Super Royal 8vo. £6. 6s.

Also a limited Edition of the same, consisting of 120 numbered Copies only, large paper Quarto; the woodcuts and steel engravings mounted on India paper; price Twenty-five Guineas **net** each set.

THE UNIVERSITY OF CAMBRIDGE FROM THE EARLIEST TIMES TO THE ROYAL INJUNCTIONS OF 1535, by J. B. MULLINGER, M.A., Lecturer on History and Librarian to St John's College. Part I. Demy 8vo. (734 pp.), 12s.

Part II. From the Royal Injunctions of 1535 to the Accession of Charles the First. Demy 8vo. 18s.

"He shews in the statutes of the Colleges, the internal organization of the University, its connection with national problems, its studies, its social life. All this he combines in a form which is eminently readable."—PROF. CREIGHTON in *Cont. Review*.

"Mr Mullinger displays an admirable thoroughness in his work. Nothing could be more exhaustive and conscientious than his method; and his style...is picturesque and elevated."—*Times*.

SCHOLAE ACADEMICAЕ: some Account of the Studies at the English Universities in the Eighteenth Century. By C. WORDSWORTH, M.A., Fellow of Peterhouse. Demy 8vo. 10s. 6d.

"Mr Wordsworth has collected a great quantity of minute and curious information about the working of Cambridge institutions in the last century, with an occasional comparison of the corresponding state of things at Oxford.

... To a great extent it is purely a book of reference, and as such it will be of permanent value for the historical knowledge of English education and learning."—*Saturday Review*.

The Cambridge Bible for Schools and Colleges.

GENERAL EDITOR: THE VERY REVEREND J. J. S. PEROWNE, D.D.,
DEAN OF PETERBOROUGH.

"It is difficult to commend too highly this excellent series."—*Guardian*.

"The modesty of the general title of this series has, we believe, led many to misunderstand its character and underrate its value. The books are well suited for study in the upper forms of our best schools, but not the less are they adapted to the wants of all Bible students who are not specialists. We doubt, indeed, whether any of the numerous popular commentaries recently issued in this country will be found more serviceable for general use."—*Academy*.

"One of the most popular and useful literary enterprises of the nineteenth century."—*Baptist Magazine*.

"Of great value. The whole series of comments for schools is highly esteemed by students capable of forming a judgment. The books are scholarly without being pretentious: information is so given as to be easily understood."—*Sword and Trowel*.

The Very Reverend J. J. S. PEROWNE, D.D., Dean of Peterborough, has undertaken the general editorial supervision of the work, assisted by a staff of eminent coadjutors. Some of the books have been already edited or undertaken by the following gentlemen:

FOR SCHOOLS AND COLLEGES,

with a Revised Text, based on the most recent critical authorities, and English Notes, prepared under the direction of the General Editor,

THE VERY REVEREND J. J. S. PEROWNE, D.D.

Now Ready.

THE GOSPEL ACCORDING TO ST MATTHEW. By the Rev. A. CARR, M.A. With 4 Maps. 4s. 6d.

"Copious illustrations, gathered from a great variety of sources, make his notes a very valuable aid to the student. They are indeed remarkably interesting, while all explanations on meanings, applications, and the like are distinguished by their lucidity and good sense."—*Pall Mall Gazette*.

THE GOSPEL ACCORDING TO ST MARK. By the Rev. G. F. MACLEAR, D.D. With 3 Maps. 4s. 6d.

"The Cambridge Greek Testament, of which Dr Maclear's edition of the Gospel according to St Mark is a volume, certainly supplies a want. Without pretending to compete with the leading commentaries, or to embody very much original research, it forms a most satisfactory introduction to the study of the New Testament in the original. . . . Dr Maclear's introduction contains all that is known of St Mark's life, an account of the circumstances in which the Gospel was composed, an excellent sketch of the special characteristics of this Gospel; an analysis, and a chapter on the text of the New Testament generally. . . . The work is completed by three good maps."—*Saturday Review*.

THE GOSPEL ACCORDING TO ST LUKE. By Archdeacon FARRAR. With 4 Maps. 6s.

THE GOSPEL ACCORDING TO ST JOHN. By the Rev. A. PLUMMER, M.A., D.D. With 4 Maps. 6s.

"A valuable addition has also been made to 'The Cambridge Greek Testament for Schools,' Dr Plummer's notes on 'the Gospel according to St John' are scholarly, concise, and instructive, and embody the results of much thought and wide reading."—*Expositor*.

II. LATIN.

BEDA'S ECCLESIASTICAL HISTORY, BOOKS

III., IV., the Text from the very ancient MS. in the Cambridge University Library, collated with six other MSS. Edited, with a life from the German of EBERT, and with Notes, &c. by J. E. B. MAYOR, M.A., Professor of Latin, and J. R. LUMBY, D.D., Norrisian Professor of Divinity. Revised edition. 7s. 6d.

BOOKS I. and II. *In the Press.*

"In Bede's works Englishmen can go back to *origines* of their history, unequalled for form and matter by any modern European nation. Prof. Mayor has done good service in rendering a part of Bede's greatest work accessible to those who can read Latin with ease. He has adorned this edition of the third and fourth books of the 'Ecclesiastical History' with that amazing erudition for which he is unrivalled among Englishmen and rarely equalled by Germans. And however interesting and valuable the text may be, we can certainly apply to his notes the expression, *La sauce vaut mieux que le poisson*. They are literally crammed with interesting information about early English life. For though ecclesiastical in name, Bede's history treats of all parts of the national life, since the Church had points of contact with all."—*Examiner*.

London: C. F. CLAY & SONS, Cambridge University Press Warehouse, Ave Maria Lane.

CICERO. DE AMICITIA. Edited by J. S. REID, Litt D.,
Fellow and Tutor of Gonville and Caius College. New Edition, with
Additions. 3s. 6d.

"Mr Reid has decidedly attained his aim, namely, 'a thorough examination of the Latinity of the dialogue.' The revision of the text is most valuable, and comprehends sundry acute corrections. . . . This volume, like Mr Reid's other editions, is a solid gain to the scholarship of the country."—*Athenæum*.

"A more distinct gain to scholarship is Mr Reid's able and thorough edition of the *De Amicitia* of Cicero, a work of which, whether we regard the exhaustive introduction or the instructive and most suggestive commentary, it would be difficult to speak too highly. . . . When we come to the commentary, we are only amazed by its fulness in proportion to its bulk. Nothing is overlooked which can tend to enlarge the learner's general knowledge of Ciceronian Latin or to elucidate the text."—*Saturday Review*.

CICERO. PRO ARCHIA POETA. Edited by J. S. REID,
Litt.D. Revised Edition. 2s.

"It is an admirable specimen of careful editing. An Introduction tells us everything we could wish to know about Archias, about Cicero's connexion with him, about the merits of the trial, and the genuineness of the speech. The text is well and carefully printed. The notes are clear and scholar-like. . . . No boy can master this little volume without feeling that he has advanced a long step in scholarship."—*The Academy*.

CICERO. PRO BALBO. Edited by J. S. REID, Litt.D.

"The editorial work is excellently done."—*The Academy*.

CICERO. PRO MURENA. With English Introduction
and Notes. By W. E. HEITLAND, M.A., Fellow and Classical Lecturer
of St John's College, Cambridge. **Second Edition, carefully revised.** 3s.

"Those students are to be deemed fortunate who have to read Cicero's lively and brilliant oration for L. Murena with Mr Heitland's handy edition, which may be pronounced 'four-square' in point of equipment, and which has, not without good reason, attained the honours of a second edition."—*Saturday Review*.

CICERO. PRO PLANCIO. Edited by H. A. HOLDEN,
LL.D., Examiner in Greek to the University of London. Second Edition.
4s. 6d.

CICERO. PRO SULLA. Edited by J. S. REID, Litt.D.
3s. 6d.

"Mr Reid is so well known to scholars as a commentator on Cicero that a new work from him scarcely needs any commendation of ours. His edition of the speech *Pro Sulla* is fully equal in merit to the volumes which he has already published. . . . It would be difficult to speak too highly of the notes. There could be no better way of gaining an insight into the characteristics of Cicero's style and the Latinity of his period than by making a careful study of this speech with the aid of Mr Reid's commentary. . . . Mr Reid's intimate knowledge of the minutest details of scholarship enables him to detect and explain the slightest points of distinction between the usages of different authors and different periods. . . . The notes are followed by a valuable appendix on the text, and another on points of orthography; an excellent index brings the work to a close."—*Saturday Review*.

OVID. FASTI. LIBER VI. With a Plan of Rome and Notes by A. SIDGWICK, M.A., Tutor of Corpus Christi College, Oxford. 1s. 6d.

"Mr Sidgwick's editing of the Sixth Book of Ovid's *Fasti* furnishes a careful and serviceable volume for average students. It eschews 'construes' which supersede the use of the dictionary, but gives full explanation of grammatical usages and historical and mythical allusions, besides illustrating peculiarities of style, true and false derivations, and the more remarkable variations of the text."—*Saturday Review*.

QUINTUS CURTIUS. A Portion of the History. (ALEXANDER IN INDIA.) By W. E. HEITLAND, M.A., Fellow and Lecturer of St John's College, Cambridge, and T. E. RAVEN, B.A., Assistant Master in Sherborne School. 3s. 6d.

"Equally commendable as a genuine addition to the existing stock of school-books is *Alexander in India*, a compilation from the eighth and ninth books of Q. Curtius, edited for the Pitt Press by Messrs Heitland and Raven. . . . The work of Curtius has merits of its own, which, in former generations, made it a favourite with English scholars, and which still make it a popular text-book in Continental schools. . . . The reputation of Mr Heitland is a sufficient guarantee for the scholarship of the notes, which are ample without being excessive, and the book is well furnished with all that is needful in the nature of maps, indices, and appendices."—*Academy*.

"Mr Sidgwick's Vergil is . . . we believe, the best school edition of the poet."—*Guardian*.

"Mr Arthur Sidgwick's 'Vergil, Aeneid, Book XII.' is worthy of his reputation, and is distinguished by the same acuteness and accuracy of knowledge, appreciation of a boy's difficulties and ingenuity and resource in meeting them, which we have on other occasions had reason to praise in these pages."—*The Academy*.

"As masterly in its clearly divided preface and appendices as in the sound and independent character of its annotations. . . . There is a great deal more in the notes than mere compilation and suggestion. . . . No difficulty is left unnoticed or unhandled."—*Saturday Review*.

ANCIENT PHILOSOPHY. A SKETCH OF, FROM THALES TO CICERO, by JOSEPH B. MAYOR, M.A. 3s. 6d.

"Professor Mayor contributes to the Pitt Press Series *A Sketch of Ancient Philosophy* in which he has endeavoured to give a general view of the philosophical systems illustrated by the genius of the masters of metaphysical and ethical science from Thales to Cicero. In the course of his sketch he takes occasion to give concise analyses of Plato's Republic, and of the Ethics and Politics of Aristotle: and these abstracts will be to some readers not the least useful portions of the book."—*The Guardian*.

MORE'S UTOPIA. With Notes by the Rev. J. RAWSON

LUMBY, D.D. 3s. 6d.

"It was originally written in Latin and does not find a place on ordinary bookshelves. A very great boon has therefore been conferred on the general English reader by the managers of the *Pitt Press Series*, in the issue of a convenient little volume of *More's Utopia* not in the original Latin, but in the quaint *English Translation thereof made by Raphe Robynson*, which adds a linguistic interest to the intrinsic merit of the work. . . . All this has been edited in a most complete and scholarly fashion by Dr J. R. Lumby, the Norrisian Professor of Divinity, whose name alone is a sufficient warrant for its accuracy. It is a real addition to the modern stock of classical English literature."—*Guardian*.
